

# FAYED TRAFFICKING MAP

At least 400 victims and over a quarter century of abuse.  
Trafficking occurred both within the UK and France and across borders.

## Paris Trafficking Hub

Though there are multiple reports of outbound trafficking from the Ritz, the scale may not be clear. French police have launched an investigation into sex-trafficking allegations.

Sustained trafficking has been reported into Paris, with abuse taking place at the Ritz, the Fayed Apartment off the Champs-Élysées (D), and the Villa Windsor (E).

Fayed-owned aircraft were among the vehicles used to traffic women and girls.

## London Trafficking Hub

Harrods was the primary recruiting conduit. Victims were harboured at 60 Park Lane; the Hyde Park Residences at 55 Park Lane, the Fayed estate at Barrow Green Court (A) and Fayed-controlled apartments in Lisson Grove (B) and Fulham (C). Fulham FC players and students of West Heath school were also abused through the London hub.

Victims selected for abuse were subject to private medical tests in London clinics and moved via Fayed-controlled vehicles, aircraft and airport ground operations.

## Riviera exploitation

Women and girls trafficked to the French Riviera were harboured and abused in Fayed-controlled residences in Monte-Carlo and St Tropez.

They were also entrapped on Fayed vessels including S.Y. Sakara and M.Y. Ramses in Monte-Carlo, St Tropez and other locations around the Mediterranean.
